

LU-CIX Management G.I.E. (Luxembourg Internet Exchange) is looking for a System & DevOps engineer for a new position opening as from January 2021.

System & DevOps engineer (m/f)

LU-CIX operates the national Internet exchange backbone and the national DDoS scrubbing centre. Be part of an exciting and fast-growing environment. In an engaged and motivated team, you will be responsible for operating the IT systems and applications of the largest Internet exchange and DDoS scrubbing infrastructure in Luxembourg.

If you're interested to help run a growing Unix shop, where windows only exist to let the sun shine in, we might have a place for you. If you automate and script everything in your world, we want to talk to you – and if you want to find out together with us, that's fine too.

Main Tasks:

- Manage and operate the LU-CIX IT system infrastructure
- Manage and operate OpenSource applications
- Manage and support the office automation environment for our cool team
- Automate recurring tasks, script system configurations and deployment
- Monitor operational parameters
- Ensure optimized utilization, security and performance of the infrastructure
- Apply, update and optimize procedures

Requirements:

- Bachelor or Master degree in computer science or equivalent
- At least 5 years of work experience
- Experience and knowledge in:
 - Linux system administration
 - VMware administration
 - MacOS client administration
 - Automating system administration with Ansible
 - General enterprise-grade IT systems: NAS, backup, file/print, mail, ...
- Display team spirit, be flexible, show decision-making skills and be organized
- Be fluent in French and English
- Understanding and speaking Luxemburgish will be considered as an advantage
- You will be required to participate in a 24x7 on-call rotation

Interested?

Please send your application by email, including your CV and motivation letter in English and French to jobs@lu-cix.lu

The first selection will be based on the curriculum vitae and motivation letters. For further information about the open position please contact Claude Demuth at LU-CIX GIE (+352 28992992-90)

About LU-CIX

LU-CIX, the Luxembourg Internet exchange was founded in 2009 based on a non-profit membership association with an open and neutral philosophy. Its aim is to develop the Internet and support the data center community in Luxembourg. As well as providing the technical infrastructure LU-CIX also makes a major contribution to the Luxembourg Internet community through its leading industry event, Luxembourg Internet Days which takes place in November every year and attracts over a thousand industry experts and decision makers from around the globe. LU-CIX also runs the datacenters-in-europe.com website, which provides a shared communication platform for all the players in the Luxembourg data center and Internet arena and promotes Luxembourg as the best place for your European data center and ICT business in the heart of Europe.
